

POLICY FOR DEVELOPING AND REVIEWING OUR
ACCESSIBILITY PLAN

School name: Sunnyfields Primary School

3-year period covered by the policy: February 2024- February 2027

Policy agreed (name): Katie Brownson Date: 25.1.24

Policy to be reviewed (Insert proposed review date): 25.1.27

Introduction

It is our intention to remove, as far as we can, those barriers which make it hard for children and adults with a disability to take part in the day to day life of our school and benefit from the educational experiences and services we provide.

We aim to ensure that our school is a welcoming place that understands and responds effectively to children and adults with disabilities and we recognise the importance of a review and planning procedure associated with continuous development and improvement.

The Equality Act 2010 defines disability as a *'physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'*

This definition provides a relatively low threshold and includes more children than many realise: 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer. Some specified medical conditions, HIV, multiple sclerosis and cancer are all considered as disabilities, regardless of their effect. Children and young people with such conditions do not necessarily have SEND, but there is a significant overlap between disabled children and young people and those with SEND.

The Equality Act 2010 sets out the legal obligations that schools, early years providers, post-16 institutions, local authorities and others have towards disabled children and young people:

- They must not directly or indirectly discriminate against, harass or victimise disabled children and young people
- They must not discriminate for a reason arising in consequence of a child or young person's disability
- They must make reasonable adjustments, including the provision of auxiliary aids and services, to ensure that disabled children and young people are not at a substantial disadvantage compared with their peers.
- This duty is anticipatory – it requires thought to be given in advance to what disabled children and young people might require and what adjustments might need to be made to prevent that disadvantage.

- Schools are allowed to treat disabled children / young people more favourably than non-disabled children / young people, and in some cases are required to do so, by making reasonable adjustments and making changes to practices to ensure, as far as is reasonably possible, that a disabled person can benefit from what the school's offer to the same extent that a person without that disability can i.e. to put them on a more level footing with children / young people without disabilities
- Public bodies, including further education institutions, local authorities, maintained schools, maintained nursery schools, academies and free schools are covered by the public sector equality duty and, when carrying out their functions, must have regard to the need to eliminate discrimination, promote equality of opportunity and foster good relations between disabled and non-disabled children and young people. Public bodies also have specific duties under the public sector equality duty and must publish information to demonstrate their compliance with this general duty and must prepare and publish objectives to achieve the core aims of the general duty. Objectives must be specific and measurable.

The duties cover discrimination in the provision of services and the provision of education, including admissions and exclusions. All providers must make reasonable adjustments to procedures, criteria and practices and by the provision of auxiliary aids and services.

School governing bodies and proprietors must also publish information about the arrangements for the admission of disabled children, the steps taken to prevent disabled children being treated less favourably than others, the facilities provided to assist access of disabled children, and their accessibility plans.

The Responsible Body

The responsible body (in maintained schools this is the governing body) must prepare—

- an accessibility plan;
- further such plans at such times as may be prescribed.

An accessibility plan is a plan for, over a prescribed period—

- increasing the extent to which disabled children / young people can participate in the school's curriculum;
- improving the physical environment of the school for the purpose of increasing the extent to which disabled children / young people are able to take advantage of education and associated services provided or offered by the school; and
- improving the delivery to disabled children / young people—
 - (i) within a reasonable time, and
 - (ii) in ways which are determined after taking account of their disabilities and any preferences expressed by them or their parents,
 of information which is provided in writing for children / young people who are not disabled.
- An accessibility plan must be in writing.
- During the period to which the plan relates, the responsible body must keep its accessibility plan under review and, if necessary, revise it.
- It is the duty of the responsible body to implement its accessibility plan.

Schools have had a duty to produce an accessibility plan since September 2002. These initial plans should have been in place by April 2003.

The Statutory Policies for Schools states that it is a requirement that maintained schools, academies, free schools, independent schools, sixth-form colleges, further education colleges and Pupil Referral Units must review their accessibility plan every three years. It also states that approval should be by the governing body however, they are free to delegate the approval right to a committee of the governing body, an individual governor or the head teacher.

The School's Context

We are a maintained school for children who age from 3 years to 11 years. The school comprises of 1 building covering a large site, mostly of one construction.

In the years 2020/21, we had 0 children / young people identified as having a disability under the given definition.

The School's Aims

At Sunnyfields Primary School we are committed to ensuring equality of education and opportunity for disabled pupils, staff and all those receiving services from the school. We aim to develop a culture of inclusion and diversity in which people feel free to disclose their disability and to participate fully in school life. The achievement of disabled pupils and students will be monitored and we will use this data to raise standards and ensure inclusive teaching. We will make reasonable adjustments to make sure that the school environment is as accessible as possible. At Sunnyfields we believe that diversity is a strength, which should be respected and celebrated by all those who learn, teach and visit here.

Formulating our Accessibility Plan

The priorities for the Accessibility Plan for our school were identified by a planning group who consisted of:

- **SEND Governor**
- **Headteacher**
- **SENCO**

Process

Our accessibility plan has been developed as follows:

- 1) Access audit and review of current activities completed
- 2) Actions to eliminate barriers identified (with short-term, medium term and long term targets).
- 3) Goals and targets set which can be measured & include time frames.
- 4) Consultation with school staff, governors.
- 5) The Plan's contents checked.
- 6) Publication of the plan (and included it in the governors' report to parents).
- 7) Implemented the plan and allocated adequate resources.
- 8) Evaluated the plan every 3 years (with the accessibility plan under on-going review and revision as necessary).

In addition to this we will;

- continually review the environment of the school, the way we plan, prepare and deliver curriculum and the information we provide for children / young people so that we can improve the access for both individuals and groups;
- work to provide an atmosphere where all children / young people feel safe and valued;

- promote understanding of disability and work to show positive models of people with a disability. We will avoid stereotypes and use language which emphasises the person rather than the disability.
- examine those parts of our active and extra-curricular activities which may have limited access for children / young people with a disability and see if it is possible to provide learning experiences which promote similar development of knowledge and understanding.

Accessing the School's Accessibility Plan

Our Accessibility plan will be available for parents to view on our school website.

Other School Policies & Documentation

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Curriculum
- Equal Opportunities and Diversity
- Staff Development
- Health & Safety (including off-site safety)
- Inclusion
- Special Educational Needs Policy and the school's SEND Information Report.
- Behaviour Management
- School Improvement Plan
- School Website and Mission Statement

The School's Complaints Procedure covers the Accessibility Plan.

Attached is a set of audits and action plans relating to the key aspects of accessibility.
